DUNIFORM®

Protect your food.
Protect your business.

Pack it fast. Make it last.

→ Behind every packed product is a team working to keep quality high and food waste low. Our machines are built to support that ambition. Preserving freshness, extending shelf life and making day-to-day operations run smoothly.

From packaging and preservation to food waste handling, designed to fit naturally into the way your operation works. Reliable, efficient and built for the demands of modern food operations. Whatever the scale.

Vacuum Machines

Remove air, lock in taste and give ingredients a longer life. A simple way to preserve quality and reduce waste.

[Explore](#)

Tray Sealing Machines

Ready meals and takeaway need to arrive in the same condition they left the kitchen. Tray sealing makes that happen.

[Explore](#)

Compost Machines

Not every ingredient ends up on the plate. Turn unavoidable food waste into a valuable resource with our compost machines.

[Explore](#)

Flowpack Machines

Protection and speed. Flowpacking delivers both, wrapping products securely as they move through production.

[Explore](#)

Thermoforming Machines

Growing volumes? Create, fill and seal packaging consistently in one continuous process with thermoforming.

[Explore](#)

Save more meals. Seal more deals.

➔ The best packaging is the kind you never have to think about. Ready when you need it, trusted to perform and made to support the everyday flow of food operations.

From trays and films to vacuum bags, every solution is designed to work hand in hand with DUNIFORM® Machines. Together, they help maintain food quality and freshness while delivering the consistency busy food operations depend on.

Trays (Plastic / Fibre / Cardboard)

The foundation of great food presentation. Customisable, recyclable and compostable, designed to protect and preserve every meal at its best.

[Explore](#)

Sealing Films (Plastic / BIO)

Made to lock in freshness and quality in dependable materials. Creating a reliable seal every time.

[Explore](#)

Bags

Keep ingredients and prepared meals fresh for longer. More time for food to be enjoyed, less risk of it going to waste

[Explore](#)

Something wrong? Not for long.

→ Good support makes a difference long before something goes wrong. To keep your operation running, we combine expert knowledge, preventive maintenance and hands-on support.

From tailored consultation and customised solutions to maintenance, spare parts and machine training, we help you get the most out of your equipment. Fast support when issues arise, the right parts when you need them, and the knowledge to operate with confidence, backed by the Duniform® team.

Consultation
Tailored solutions designed around your workflow and needs.

Service & Maintenance
Reliable service that keeps you running without interruption.

Spare Parts
Fast access to the right parts for repairs and upgrades.

Training
Hands-on training that gets your team started.

Customisation
Profile printed products, customized packaging solutions based on your production needs.

Keep it moving. Keep improving.

➔ Great food deserves the same care beyond the kitchen. Our thermo equipment and trolleys are designed to help teams transport, store and serve food while maintaining quality every step of the way.

From kitchen to service, every accessory is designed to help food arrive as intended. Supporting temperature control, smooth transport and efficient serving throughout the day.

Thermo Bags
Designed for food on the move. Our thermo bags help maintain temperature and quality, making it easier to deliver meals as intended.

Thermoboxes
When food needs to travel further, temperature matters. Our thermoboxes help keep meals hot or cold from kitchen to customer.

Trolleys
Built to keep service moving. Our trolleys help transport, organise and serve food efficiently, supporting smooth workflows throughout the day.
